

Support the Autocross Club of Central Oregon

Our mission is to encourage and promote the sport of autocross while building a strong and safe automotive community in Central Oregon. Autocross is a timed motorsport where drivers navigate a cone-marked course, typically in a large parking lot. We foster a safe environment for drivers to develop car control skills and enjoy friendly competition. Our events typically attract between 50 and 70 drivers and an equal number of spectators.

For 2026, we are raising funds to support the RHS Automotive Program, help students build an autocross car, and replace timing equipment critical to our events. Your sponsorship directly strengthens local youth programs and keeps our community events thriving.
